21. 1. 1942.

22. 1. 1942.

23rd Sept. 1941. A fine day, with a
 strong wind from the west. The
 sun was out for most of the day.
 Took the 11.15 train to London.
 I then went to the office.
 At 4.15 I went to the bank.
 The bank was closed.
 I bought some stamps.
 I then went home.
 I had a letter from Mr. Jones.
 He was well and happy.
 He had been to the doctor.

27th Sept. 1941. A fine day, with a
 light breeze from the west. The
 sun was out for most of the day.
 A rain while I was in the office.
 After much hot weather, it was a
 fresh night on night of 25th 26th & a fine
 sunny day on 26th. The sun was out
 on 25th in Dublin & sunny in London
 same day (from Mr. Jones).
 Rode in bike to head of off road in
 Glencree, Co. Du., and then at noon
 then walked up to about 900 ft. of East Brook

24th Sept. 1941. A fine day, with a
 strong wind from the west. The
 sun was out for most of the day.
 Took the 11.15 train to London.
 I then went to the office.
 At 4.15 I went to the bank.
 The bank was closed.
 I bought some stamps.
 I then went home.
 I had a letter from Mr. Jones.
 He was well and happy.
 He had been to the doctor.

11th October 1942. A very fine day, but
 too very strong day - wind from S.W. -
 some light rain in the evening. The
 tide (down) to 100 ft. The wind
 & after an hour or two the tide was
 plantation W. of Linn's Cottage. The
 five places are following:

- 1 = Slope from road to plantation, 100 ft. down.
- 2 = W. edge of field, 100 ft. down - the bottom
 of the field with water.
- 3 = Edge of road to plantation, 100 ft. W.
 of Linn's Cottage.
- 4 = Inside wall of plantation.
- 5 = Shrub out of sloping field, 100 ft. W.
 of old poplar tree at 4.

Taken at 1 on 11th Oct. (Key Water, K.S.A.)
Bombus agrorum 1 (perched on a stick)
Vespa vulgaris 1 (perched on a stick)
Cryptine 3 (2 on 1, 1 on 2) and 1 on 3

Spis 1 (perched on a stick)
 (seen to fly into spider web) - 1 on 1.

28th Sept. 1913. Sunday.

At home.

Visited the garden.

Found many insects.

Some of them were new.

Amongst the plants.

Found a few beetles.

One of them was very large.

It was about 1 inch long.

and 1/2 inch wide.

It was very dark.

Many were small.

Some were very small.

and some were very large.

Taken at 1, 7 in plantation, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

6th Dec 1942. Fine day.
 Spent day in the field.
 along the river bank.
 Took a number of photos.
 of the *Lythrum* Ridge & the
 to the *Lythrum* Ridge.
 On the *Lythrum* Ridge.
 camp - at least 30 miles.
 along the *Lythrum* Ridge.
 Children Home & the *Lythrum* Ridge.
 to the *Lythrum* Ridge.

12th Dec 1942. Fine day.
 after a cold night.
 14th Dec 1942. Fine day.
 with the *Lythrum* Ridge.
 bridge. The *Lythrum* Ridge.
 plenty of *Lythrum* Ridge.

16th Dec 1942. Very fine day.
 clear sky & hot sun.
 S.E. gale.
 In afternoon walked in the *Lythrum* Ridge.

17th Dec 1942

at the *Lythrum* Ridge.
 with the *Lythrum* Ridge.
 - part of the *Lythrum* Ridge.

49.

Sept 1942

Mild weather - great wind & rain

from N.W. to S.W.

27th Jan. 1912. On flower in garden
 Thymus, yellow flowers, etc. - 1st of Jan. - flowers
 open on *Sax. oppositifolia*, 1st of Jan. - flowers
 on *Learex stricta* along with leaves - all of them
 on *Salix cinerea* - last year - 1st of Jan.
 silencing. Early plant of *S. cinerea* - 1st
 no flower yet open.

27th Jan. 1912. On flower in garden
 Thymus, yellow flowers, etc. - 1st of Jan. - flowers
 open on *Sax. oppositifolia*, 1st of Jan. - flowers
 on *Learex stricta* along with leaves - all of them
 on *Salix cinerea* - last year - 1st of Jan.
 silencing. Early plant of *S. cinerea* - 1st
 no flower yet open.

4th Feb. 1912. On flower in garden
 Thymus, yellow flowers, etc. - 1st of Jan. - flowers
 open on *Sax. oppositifolia*, 1st of Jan. - flowers
 on *Learex stricta* along with leaves - all of them
 on *Salix cinerea* - last year - 1st of Jan.
 silencing. Early plant of *S. cinerea* - 1st
 no flower yet open.

4th Feb. 1912. On flower in garden
 Thymus, yellow flowers, etc. - 1st of Jan. - flowers
 open on *Sax. oppositifolia*, 1st of Jan. - flowers
 on *Learex stricta* along with leaves - all of them
 on *Salix cinerea* - last year - 1st of Jan.
 silencing. Early plant of *S. cinerea* - 1st
 no flower yet open.

1st Feb. 1943. Still in the
same place. The weather is
very cold. The wind is
strong. The snow is deep.

9th Feb. Still in the same
place. The weather is very
cold. The wind is strong.
The snow is deep. The
ground is very hard. The
trees are bare. The
fences are covered in
snow. The sky is blue.
Everything is very cold.

10th Feb. 43. Still in the
same place. The weather is
very cold. The wind is
strong. The snow is deep.

12th Feb 43. Still in the
same place. The weather is
very cold. The wind is
strong. The snow is deep.
The ground is very hard.
The trees are bare. The
fences are covered in
snow. The sky is blue.
Everything is very cold.

17th Feb. Still in the same
place. The weather is very
cold. The wind is strong.
The snow is deep. The
ground is very hard. The
trees are bare. The
fences are covered in
snow. The sky is blue.
Everything is very cold.

18th Feb. Still in the same
place. The weather is very
cold. The wind is strong.
The snow is deep. The
ground is very hard. The
trees are bare. The
fences are covered in
snow. The sky is blue.
Everything is very cold.

2nd March 1911

to have a very good day
 I did not go to the
 got on
 what was pretty to
 abundant, saw some of the
 Saw some of the
 a pair of the
 colour of the
 bird I could think it was a
 Goldcrest but it was too big
 the, I felt sure.

6th March 1911. To have
 as previous day, but
 apparently no rain. Saturday
 1 PM & after
 the afternoon
 reservoir, in very hot sun.

to have a very good day
 I did not go to the
 got on
 what was pretty to
 abundant, saw some of the
 Saw some of the
 a pair of the

 Goldcrest but it was too big
 the, I felt sure.

6 3 4 5. At 11
 first specimen of the
 and first colour of the
 but as to the
 maintenance

7th March 1901. Arrived at 10.15
from the station. The day was
very cold & the wind was
from the north.

Went to the bank & back to the station
by the river. The water was
very low & the ice was
very thin.

On my walk I saw a
Black-throated Diver. Also saw a
(*Colinus palustris*) in the field. I
saw a few more of these in the
on Butterbur (*Petrorhiza*) with some
just showing.

8th March 1901. Arrived at 10.15
from the station. The day was
very cold & the wind was
from the north.

Went to the bank & back to the station
by the river. The water was
very low & the ice was
very thin.

10th March 1928. 6 p.m. to 10 p.m.
at 11.11.12

Went by 11.11.12 bus to Berrig
H. Comfort to hunt with a light net but has
riser above Emmering, at first a few

found 4. of the decided *laminata*
much. *laminata* is the commonest
felled a light net for a few

village with these in dark. *laminata*
is not as common as *laminata*
laminata, a few *laminata* *laminata*

H. aculeata, *laminata*. *laminata* is
common than *laminata* is *laminata*
Took two or three *laminata* *laminata*

river above the river *laminata*
from Ballybrat direction, *laminata*
river of village *laminata* *laminata*

Saw several of *Andrena* *Andrena* *Andrena*
my hand down, *Andrena* *Andrena* *Andrena*

Also saw a *Andrena* *Andrena* *Andrena*
burrow in sandy field above
cottage *Andrena* *Andrena* *Andrena*

on or *Salix* near some *Andrena*
Andrena *Andrena* *Andrena*

 Very fine day - in the late afternoon
 I spent some time in the garden
 and found many of the plants
 very busy at their work
 and many of the insects
 were very busy at their work

12th March 1942. All day fine & sunny.
No wind. Temp. 50° to 60°. No rain.
No clouds. No wind. No rain.
No clouds. No wind. No rain.
No clouds. No wind. No rain.

First white snow seen on 12th March.
So that this year we have had no snow.
First frost on 12th March. No snow.
A frost on 12th March. No snow.

21st March 1942. All day fine & sunny.
madden drip started after rain.
after a couple of hours rain, the sun
cleared off the rain, and the sun
garden. In afternoon, before rain, the sun
leaving, up Doddon in the afternoon.
No sign of Bluff Liff. Many places on
hedge bank by path of Doddon in one place & several
pairs in up.

22nd March 1942. All day fine & sunny.
No wind. Temp. 50° to 60°. No rain.
No clouds. No wind. No rain.
No clouds. No wind. No rain.
No clouds. No wind. No rain.

23rd March 1942. All day fine & sunny.
No wind. Temp. 50° to 60°. No rain.
No clouds. No wind. No rain.
No clouds. No wind. No rain.
No clouds. No wind. No rain.

1st April 1943. A fine day, with

South wind & some sun.

Left at 10.30 for the garden.

(I mounted 2 of the birds.)

Spent the day in the garden.

Spent the day in the garden.

Spent the day in the garden.

Also saw *Bombus agrorum* & *B. lucorum* at the garden.

8th Sept 1912 - Fair day, but some

rain, after morning had been

very dry.

About 1/2 of the day, the sun

was out, but the wind was

very strong, and the sea

was very rough.

The day was

1st of the day, the sun

was out, but the wind

was very strong, and

the sea was very rough.

The day was

1st of the day, the sun

was out, but the wind

was very strong, and

the sea was very rough.

The day was

1st of the day, the sun

was out, but the wind

was very strong, and

the sea was very rough.

The day was

1st of the day, the sun

was out, but the wind

was very strong, and

the sea was very rough.

Sanflies

Dolichopus nigritarsis
Tenthrina viridula
Amaurogaster
C. clauda
Notatus
Schizocara
Gratiocampa

[34 insects mounted & labelled 27.1.1945]

07, end - 79.

23rd May 1941. A day of rain & wind.
 After rain, the sun came out for a while.
 I went to the garden at 10.15.
 Did not go to the garden, but
 made a list of the insects seen in the
 garden at 10.15.

Garden, 23rd May 1941.
Bombus lucorum ♀ at 10.15.
Andrena ♂ at 10.15.
Halictus leucopus ♀♀, seen in the garden, but
 not seen at 10.15.
Verpa generosa ♀ this time, seen in the garden
 at 10.15. Seen down the day - 1st seen at 10.15
 seen for some time later, but not seen after
 10.15, at 9.15.

Odynerus pictus 1 ♂, 1 ♀ seen at 10.15.
Crabro varius 2 ♂, 1 ♀ seen at 10.15.
Scutellaria praevenia ♂, 1 ♀ seen at 10.15.
Silene acaulis ♂, 1 ♀ seen at 10.15.
 galled. See p. 116.

Other specimens sent to the British Museum, but to belong to the *Microgaster* group.

[91 insects mounted & then labelled 29.1.1945.]

24th May 1941. A day of rain & wind.
 After rain, the sun came out for a while.
 I went to the garden at 10.15.
 Did not go to the garden, but
 made a list of the insects seen in the
 garden at 10.15.

26th May 1941. A day of rain & wind.
 After rain, the sun came out for a while.
 I went to the garden at 10.15.
 Did not go to the garden, but
 made a list of the insects seen in the
 garden at 10.15.
 to p. 116 on 21.9.1941 (1941 not 1942!) & specimens on 1.10.1941.
 No specimens sent to the British Museum, but to belong to the *Microgaster* group.

15 July 1901

London

Dear Mr. ...

I have received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

that I have received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

that I have received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

that I have received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

that I have received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

that I have received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

that I have received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

that I have received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

that I have received your letter of the 10th inst.

Yours very truly

W. H. ...

Continued at foot of
next p. →

A hand-drawn sketch map of a coastal area. The map shows a coastline with several labeled locations. On the left, "V. de la Cruz" is written. In the center, "L. Curra" is written. On the right, "San Juan" is written. A line runs along the coast, and a shaded area is visible on the right side. An arrow points towards the top left.
